Experience

Jethur – Software Engineer (Golang) Oct 2025 – Present

- Develop and maintain Go (Gin, GORM) backend services and REST APIs for a GRC SaaS platform.
- Built 3 core modules (risk tracking, vendor risk, data privacy) with multi-step review workflows.
- Independently designed and built a standalone vendor portal service for third-party contractors.

Projects

BrainSync – Collaborative Study Platform GitHub

- Built a study platform combining 4 tools (video calls, whiteboard, code editor, notes) in one app.
- Engineered a Node.js, TypeScript, and Redis backend; deployed with Docker on AWS EC2 at 99.9% uptime.
- Implemented tiered subscriptions and secured authentication with JWT and Google OAuth.

ReadAgain – E-commerce Platform GitHub

- Built a book marketplace with secure authentication, Razorpay payments, and real-time order tracking.
- Automated inventory and email alerts; deployed a Dockerized backend on AWS EC2 and frontend on Vercel.

Education

IGNOU – Bachelor of Computer Applications (BCA) Pursuing

Brocamp, Calicut – Full-Stack Development (Certificate) Aug 2024 – Aug 2025
